

Description:

This report shows Diagnosis Related Groups(DRG) or inpatient services. They are an average of all the DRGs of that type and are reflective of the average price or charges for that diagnostic condition. They are indicative of what the average person with those conditions would receive as a charge for their stay

Charges are reflective of the total charge amount per encounter.

The self pay price is the price extended to patients without insurance. Patients with insurance have a contractually "allowed amount." for the procedure (not published) that was negotiated by their insurance plan.
